

Special Issue

Revitalizing Heritage Places and Memories for Sustainable Tourism

Message from the Guest Editors

Heritage is a vital expression of societies, revealed in the generational transmission of material testimonies, customs, traditions, and values. Revitalizing places through heritage and cultural memories for sustainable tourism not only centers on preserving cultural, historical, and natural landmarks but also holds the potential to significantly foster economic growth and promote cultural, environmental, and social sustainability, offering a promising and prosperous future for these places. This Special Issue aims to present methodological approaches for revitalizing, conserving, and safeguarding endangered historical places and their significant cultural heritage and natural landmarks. This approach not only intends to use dynamic safeguard and (re)generative processes for place development but also to support local communities, enrich visitor experiences, and help protect cultural heritage for the benefit of future generations. This initiative seeks to cultivate a common vision rooted in a sustainable viewpoint that supports sustainable living, preserves local culture, and promotes collaborative engagement in regenerative activities, offering hope for a brighter future.

About the Journal

Message from the Editorial Board

Heritage is an international, peer-reviewed, open access journal that focuses on knowledge, conservation, interpretation and management of cultural and natural heritage, by presenting and enabling novelty and advances in sensing technologies, novel methods, best practices and policies. *Heritage* has the ambition to become a “cultural forum”, where scientists and experts offer answers to significant issues affecting cultural and natural heritage, by creating a knowledge bridge between different technological and social disciplines. *Heritage* has an Editorial Board of eminent international leaders and this ensures rigorous peer-review processing for high quality and novel papers. We strongly recommend *Heritage* for the rapid and professional publication of your innovative research and case studies.

Editors-in-Chief

Dr. Francesco Soldovieri

National Research Council of Italy (CNR), Institute for Electromagnetic Sensing of the Environment (IREA), Via Diocleziano 328, 80124 Naples, Italy

Dr. Nicola Masini

CNR-IBAM, 85050 Baragiano Scalo, Italy
